Notes to Condensed Interim Consolidated Financial Statements April 30, 2018 (Expressed in Canadian Dollars) (Unaudited)

1. Nature of operations and going concern

Eastmain Resources Inc. (the "Company" or "Eastmain") and its wholly-owned subsidiary, Eastmain Mines Inc., are engaged in the acquisition and exploration of resource properties within Canada. The Company is a publicly-held company incorporated under the Business Corporations Act (Ontario) and its common shares are listed on the Toronto Stock Exchange under the symbol "ER". The Company's registered office address is The Canadian Venture Building, 82 Richmond Street East, Suite 201, Toronto, Ontario, Canada, M5C 1P1.

The Company is in the exploration stage and has not yet determined whether its exploration and evaluation assets contain resources that are economically recoverable. The continued operations of the Company and the recoverability of amounts shown for its exploration and evaluation assets are dependent upon the ability of the Company to obtain financing to complete the exploration and development of its exploration and evaluation assets, the existence of economically recoverable reserves and future profitable production, or alternatively, upon the Company's ability to recover its costs through a disposition of its exploration and evaluation assets. The carrying cost for exploration and evaluation assets does not necessarily represent the present or future value of the projects. Changes in future conditions could require a material change in the amount recorded for the exploration and evaluation assets.

These unaudited condensed interim consolidated financial statements are prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to continue operating for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. As an exploration-stage company, Eastmain does not have any sources of revenue and historically has incurred recurring operating losses. As at April 30, 2018, the Company had working capital of \$2,504,702 (October 31, 2017 - \$4,999,021) and shareholders' equity of \$75,030,032 (October 31, 2017 - \$74,744,936). Management has assessed that this working capital is sufficient for the Company to continue as a going concern beyond one year. If the going concern assumption was not appropriate for these unaudited condensed interim consolidated financial statements it would be necessary to restate the Company's assets and liabilities on a liquidation basis.

2. Basis of presentation

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretations issued by the IFRS Interpretations Committee. These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS' issued and outstanding as of June 5, 2018, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended October 31, 2017. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending October 31, 2018, could result in restatement of these unaudited condensed interim consolidated financial statements.

2. Basis of presentation (continued)

Standard issued but not yet effective

IFRS 9 – Financial Instruments ("IFRS 9"), issued by the IASB in October 2010 is intended to entirely replace IAS 39 – Financial Instruments: Recognition and Measurement ("IAS 39"), using a single approach to determine whether a financial asset is measured at amortized cost or fair value, thereby reducing the complexity of the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash-flow characteristics of financial assets. Most of the requirements in IAS 39 for the classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires the use of a single method of impairment determination, which replaces the multiple methods available under IAS 39. The standard will be effective for annual periods beginning on or after January 1, 2018. The Company is currently evaluating the impact this final standard is expected to have on its unaudited condensed interim consolidated financial statements.

Impairment of exploration and evaluation assets:

In 2014, the Company recognized impairment on certain properties because there were indications that the carrying amount of these assets exceeded their demonstrable recoverable amounts. During the six months ended April 30, 2018, ongoing expenditures on these properties were written down by \$131,317 (six months ended April 30, 2017 - \$93,862). Under certain conditions, these impairment charges may be reversed. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(i) In late 2017, the Company was advised by the Canada Revenue Agency ("CRA") that certain Canadian Exploration Expenses ("CEE") expenditures which had been renounced to investors in 2013 and 2014 via flow-through financings were reassessed by the CRA. The Company is currently awaiting final documentation regarding the specific reassessment amounts and intends to file an objection and vigorously contest the reassessment. The company and its tax advisors maintains its stance that the associated expenditures are CEE-eligible. Assuming the Company is unsuccessful in its appeal and/or fails to reach a settlement with the CRA, the Company anticipates potential repayments of up to \$280,000. While not considered material to the operations of Eastmain, the Company has accrued for this amount and will adjust the accrual on completion of the appeal process.

9. Flow-through share premium liability and expenditure commitment

In December 2017, the Company raised \$2,280,000 by issuing flow-through shares. The premium paid by investors in excess of the market price of the shares was \$420,000. In accordance with flow-through regulations, the Company is committed to incur eligible exploration expenditures before December 31, 2018 in the amount of \$2,280,000 which was renounced to investors in December 2017.

c) Restricted Share Unit ("RSU") plan

During the year ended October 31, 2017, the Company adopted a RSU Plan. The maximum aggregate number of shares reserved for issuance under the RSU Plan shall not exceed a combined total of 5% of the Company's issued and outstanding shares.

The grant date fair value of the RSU equals the fair market value of the corresponding shares at the grant date. The fair value of these equity-settled awards is recognized as compensation expense with a corresponding increase in equity. The total amount expensed is recognized over the vesting period, which is the period over which all the specified vesting conditions should be satisfied.

During the year ended October 31, 2017, the Company granted 340,000 RSU to certain employees under its RSU Plan. These RSU vest as follows: one-third of the options vest immediately, one-third vest on the first anniversary and one-third on the second anniversary. Compensation for the three and six months ended April 30, 2018 was \$14,875 and \$29,750, respectively (three and six months ended April 30, 2017 - \$nil).
