The accompanying notes are an integral part of these unaudited condensed interim consolidated financial statements.

1. Nature of operations and going concern

Eastmain Resources Inc. (the "Company" or “Eastmain”) and its wholly-owned subsidiary, Eastmain Mines Inc., are engaged in the acquisition and exploration of resource properties within Canada. The Company is a publicly-held company incorporated under the Business Corporations Act (Ontario) and its common shares are listed on the Toronto Stock Exchange under the symbol “ER” and on the OTCQX under the symbol "EANRF". The Company’s registered office address is The Canadian Venture Building, 82 Richmond Street East, Suite 201, Toronto, Ontario, Canada, M5C 1P1.

The Company is in the exploration stage and has not yet determined whether its exploration and evaluation assets contain resources that are economically recoverable. The continued operations of the Company and the recoverability of amounts shown for its exploration and evaluation assets are dependent upon the ability of the Company to obtain financing to complete the exploration and development of its exploration and evaluation assets, the existence of economically recoverable reserves and future profitable production, or alternatively, upon the Company’s ability to recover its costs through a disposition of its exploration and evaluation assets. The carrying cost for exploration and evaluation assets does not necessarily represent the present or future value of the projects. Changes in future conditions could require a material change in the amount recorded for the exploration and evaluation of its assets.

These unaudited condensed interim consolidated financial statements are prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to continue operating for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. As an exploration-stage company, Eastmain does not have any sources of revenue and historically has incurred recurring operating losses. As at April 30, 2019, the Company had working capital of $455,707 (October 31, 2018 - $4,586,204) and shareholders’ equity of $79,233,276 (October 31, 2018 - $79,208,258). Management has assessed that this working capital and the proceeds from recently completed financing are sufficient for the Company to continue as a going concern beyond one year. If the going concern assumption was not appropriate for these unaudited condensed interim consolidated financial statements it would be necessary to restate the Company’s assets and liabilities on a liquidation basis.

2. Basis of presentation

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretations issued by the IFRS Interpretations Committee. These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS' issued and outstanding as of June 11, 2019, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended October 31, 2018, except as noted below. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending October 31, 2019, could result in restatement of these unaudited condensed interim consolidated financial statements.

2. Basis of presentation (continued)

New Accounting Standard Adopted

On July 24, 2014, the IASB issued the completed IFRS 9 - Financial Instruments ("IFRS 9") to come into effect on January 1, 2018 with early adoption permitted.

IFRS 9 includes finalized guidance on the classification and measurement of financial assets. Under IFRS 9, financial assets are classified and measured either at amortized cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") based on the business model in which they are held and the characteristics of their contractual cash flows. IFRS 9 largely retains the existing requirements in IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"), for the classification and measurement of financial liabilities.

The Company adopted IFRS 9 in its unaudited condensed interim consolidated financial statements on November 1, 2018. Due to the nature of its financial instruments, the adoption of IFRS 9 had no impact on the opening accumulated deficit balance on November 1, 2018. The impact on the classification and measurement of its financial instruments is set out below.

All financial assets not classified at amortized cost or FVOCI are measured at FVTPL. On initial recognition, the Company can irrevocably designate a financial asset at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated at FVTPL:

- It is held within a business model whose objective is to hold the financial asset to collect the contractual cash flows associated with the financial asset instead of selling the financial asset for a profit or loss;

- Its contractual terms give rise to cash flows that are solely payments of principal and interest.

All financial instruments are initially recognized at fair value on the statement of financial position. Subsequent measurement of financial instruments is based on their classification. Financial assets and liabilities classified at FVTPL are measured at fair value with changes in those fair values recognized in the unaudited condensed interim consolidated statement of loss and comprehensive loss for the period. Financial assets classified at amortized cost and financial liabilities are measured at amortized cost using the effective interest method.

The following table summarizes the classification and measurement changes under IFRS 9 for each financial instrument:

Classification	IAS 39	IFRS 9
Cash and cash equivalents	FVTPL	FVTPL
Marketable securities	FVTPL	FVTPL
Other receivables	Loans and receivables (amortized cost)	Amortized cost
Accounts payable and accrued liabilities	Other financial liabilities	Amortized cost
Advances received for exploration work	Other financial liabilities	Amortized cost
Flow-through share premium liability	Other financial liabilities	Amortized cost

The original carrying value of the Company's financial instruments under IAS 39 has not changed under IFRS 9.

2. Basis of presentation (continued)

Standard issued but not yet effective

On January 13, 2016, the IASB issued IFRS 16 - Leases ("IFRS 16"). The new standard is effective for annual periods beginning on or after January 1, 2019. IFRS 16 will replace IAS 17 - Leases ("IAS 17"). This standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. IFRS 16 substantially carries forward the lessor accounting requirements of IAS 17, while requiring enhanced disclosures to be provided by lessors. Other areas of the lease accounting model have been impacted, including the definition of a lease. Transitional provisions have been provided. The Company intends to adopt IFRS 16 in its financial statements for the period beginning on November 1, 2019. The Company is evaluating the impact of adoption and expects to report more detailed information in its consolidated financial statements as the effective date approaches.

4. Marketable securities

(a) Marketable securities held

Bonds and other securities are recorded at fair value. As at January 31, 2019, the Company did not hold any bonds. Investments in public companies consist of shares in Dianor Resources Inc., which were acquired in exchange for geological data; shares of Threegold Resources Inc., received as a dividend from Dianor Resources Inc.; shares in Kaizen Discovery Inc. and Meryllion Resource Corp. were received as a result of a sale of prospecting permits and mineral claims to Western Lithium Corp.; and shares of Osisko Metals Inc. (formerly Pine Point Mining Ltd.) ("Pine Point") were acquired in conjunction with an option enabling Pine Point to acquire a 50% interest in the Lac Lessard project.

Impairment of exploration and evaluation assets:

In 2014, the Company recognized impairment on certain properties because there were indications that the carrying amount of these assets exceeded their demonstrable recoverable amounts. During the six months ended April 30, 2019, ongoing expenditures on these properties were written down by $70,813 (six months ended April 30, 2018 - $131,317). Under certain conditions, these impairment charges may be reversed. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(Expressed in Canadian Dollars)

8. Amounts payable and accrued liabilities

	As at April 30, 2019	As at October 31, 2018
Amounts payable and accrued liabilities	**$ 1,304,236**	$ 1,515,908
Government remittances payable	**-**	120
Accrual for flow-through financings reassessment (i)	**280,000**	280,000
Due to related parties (note 13)	**208,475**	86,366
	$ 1,792,711	$ 1,882,394

(i) In late 2017, the Company was advised by the Canada Revenue Agency ("CRA") that certain Canadian Exploration Expenses ("CEE") expenditures which had been renounced to investors in 2013 and 2014 via flow-through financings were reassessed by the CRA. The Company is currently awaiting final documentation regarding the specific reassessment amounts and intends to file an objection and vigorously contest the reassessment. The Company and its tax advisors maintain its stance that the associated expenditures are CEE-eligible. Assuming the Company is unsuccessful in its appeal and/or fails to reach a settlement with the CRA, the Company anticipates potential repayments of up to $280,000. While not considered material to the operations of Eastmain, the Company has accrued for this amount and will adjust the accrual on completion of the appeal process.

9. Flow-through share premium liability and expenditure commitment

	Flow-through premium liability	Flow-through spending commitment
Balance, October 31, 2018	**$ 443,999**	**$ 1,912,613**
Reduction for expenses incurred	(443,999)	(1,912,613)
Balance, April 30, 2019	**$ -**	**$ -**

During the six months ended April 30, 2019, the Company satisfied all remaining flow-through expenditure commitments.

10. Share capital

a) Authorized and issued share capital

The authorized share capital consists of an unlimited number of common shares. The common shares do not have a par value. All issued shares are fully paid.

(i) On December 14, 2017, the Company closed a non-brokered offering of 6,000,000 "flow-through" common shares (the "FT Shares") at a price of $0.38 per FT Share, to raise aggregate gross proceeds of $2,280,000.

The net proceeds of the offering are expected to be used to fund exploration and development of the Company's mineral concessions in Quebec.

(ii) As at April 30, 2019, $300,125 of subscriptions were received in advance for shares issued subsequent to April 30, 2019 (note 14(i)).

c) Restricted Share Unit ("RSU") plan

During the year ended October 31, 2017, the Company adopted an RSU Plan. The maximum aggregate number of shares reserved for issuance under the RSU Plan shall not exceed a combined total of 5% of the Company's issued and outstanding shares.

The grant date fair value of the RSU equals the fair market value of the corresponding shares at the grant date. The fair value of these equity-settled awards is recognized as compensation expense with a corresponding increase in equity. The total amount expensed is recognized over the vesting period, which is the period over which all the specified vesting conditions should be satisfied. RSU are converted in common shares when vested.

During the year ended October 31, 2017, the Company granted 340,000 RSU to certain employees under its RSU Plan. These RSU vest as follows: one-third of the options vest immediately, one-third vest on the first anniversary and one-third on the second anniversary. In relation to this grant, RSU vesting for the three and six months ended April 30, 2019 was $4,958 and $9,916, respectively (three and six months ended April 30, 2018 - $14,875 and $29,750), respectively.

(Expressed in Canadian Dollars)

14. Subsequent event

(i) On May 8, 2019, the Company announced it completed a bought deal private placement (the "Offering") for aggregate gross proceeds of approximately $3,189,000.

The Offering was conducted by a syndicate of underwriters led by Laurentian Bank Securities Inc. and included Cormark Securities Inc., Industrial Alliance Securities Inc., Echelon Wealth Partners Inc., GMP Securities L.P. and CIBC Capital Markets.

Pursuant to the Offering, the Company issued an aggregate of 8,987,203 units (“Hard Units”) at a price of $0.135 per Hard Unit, 8,044,285 Quebec flow-through common shares of the Company (the “Quebec FT Shares”) at a price of $0.175 per Quebec FT Share, 1,064,500 federal flow-through common shares of the Company (the “Federal FT Shares”) at a price of $0.17 per Federal FT Share, and 1,646,900 charity flow-through units of the Company (“Charity FT Units”) at a price of $0.235 per Charity FT Unit (together with the Hard Units, Quebec FT Shares, Federal FT Shares, and Charity FT Units, the “Securities”). Each Hard Unit and each Charity FT Unit consisted of one common share of the Company and one-half of one common share purchase warrant (each whole common share purchase warrant, a “Warrant”). Each Warrant will entitle the holder to acquire one common share of the Company for two years from the closing of the Offering at a price of $0.17.

The net proceeds from the sale of the Hard Units will be used to fund the exploration and development of the Company’s Québec mineral concessions and for general corporate and working capital purposes. The gross proceeds received by the Company from the sale of the Quebec FT Shares, Federal FT Shares and common shares comprising, in part, the Charity FT Units, will be used to incur Canadian Exploration Expenses (“CEE”) that are “flow-through mining expenditures” (as such terms are defined in the Income Tax Act (Canada) and the Taxation Act (Quebec)) on the Company’s properties in Québec, which will be renounced to the subscribers with an effective date no later than December 31, 2019.

All Securities issued pursuant to the Offering are subject to a statutory hold period expiring September 9, 2019. Insiders of the Company purchased, directly and indirectly, an aggregate of 688,000 Federal FT Shares, 298,500 Hard Units, 115,000 Quebec FT Shares and 850,000 Charity FT Units in connection with the Offering.
